SEVENTIETH YEAR

Coast-Born Snowstorm Hits Alta.

Lashing Winds
Bring Winter
Back to Province

Winter came back to Edmonton today.

Hard on the heels of weekend higher-than-normal temperatures and sunny weather came lashing wind and wet snow.

Snow struck the city at 5:30 a.m. today and continued falling all morning, but skies will clear this afternoon.

Temperatures will be about 15 degrees below the normal for this time of year, and will reach a high of only 40 above this afternoon.

Strong winds at 25 miles an hour from the northwest will continue during the day.

The storm which moved through Alta of Alberta behind Edmonton's Saturday afternoon dust storm and cooler Sunday weather, brought nearly an inch of snow to the city this morning.

GOOD FOR FARMS

The heavy snowfall is expected to soak into farm lands and generally improve pre-seeding moisture conditions.

The storm was most violent in Northern Alberta, bringing two inches of snow to Grande Prairie early this morning, and more than two inches in the Lesser Slave Lake region.

Temperatures remained near the freezing point.

At 11 a.m. there were very strong winds of nearly 80 miles an hour were reported.

SOIL IS DRIFTED

In the southern part area, thousands of acres of topsoil disappeared from farms early as 6 p.m.

Ottawa Says Larochelle Already Signed for 1950

OTTAWA, April 17.—(CP)—T. P. (Jimmy) McCaffrey, vice-president and general manager of the Ottawa Rough Riders football club, said today that Bill Larochelle, who signed a 1950 Canadian Rugby Union card with Ottawa last fall, will not be allowed to play for Winnipeg Blue Bombers this fall. McCaffrey said Larochelle has signed a 1950 Canadian Rugby Union card with Ottawa, but he will not be allowed to play for Winnipeg Blue Bombers this fall. McCaffrey said Larochelle has signed a 1950 Canadian Rugby Union card with Ottawa last fall, will play for Ottawa 'or he will not play at all.'

"As far as we are concerned," McCaffrey said, "he may attend the University of Manitoba, but he'll play football for Ottawa or he will not play at all."

Ralph Misser, president of the Blue Bombers, said Larochelle had said he had not signed on with Ottawa in 1950. Misser said, "Larochelle told me when he signed a 1950 card with Bombers that he had not signed on with Ottawa." In fact, he asked me if Ottawa could hold him on his 1949 card.

McCaffrey reported last week that Larochelle, who plans to attend the University of Manitoba next fall, would play for the Bombers.

EVERYTHING BUT WEATHER

IT WAS a beautiful day . . . on Sunday. The golf courses were crowded. Word of golf coming back finally got around to Reporter Stanley Burke. Pleased that Edmonton should have such fine weather . . . and on a Sunday, too, mind you . . . he hitched up the dog sled and went out for a game today. He said he had no trouble replacing the turf. Chiefly because he couldn't find any.

Crash Of Jet Fighter Kills Man On Ground

WINNIPEG, April 17.—(CP)—A shiny Vampire jet fighter crashed yesterday in a residential area near Steenbok airport. One civilian was killed and another slightly hurt. The RAF reserve pilot was seriously injured.

The plane apparently was coming in for an emergency landing when it hit a house, dived through a garage, flipped across a vacant lot, passed one house and tumbled against another.

Police in suburban St. James, where the accident occurred, said Lorihall, 41-year-old carpenter, who was flying in his car in the garage, was killed.

FO. Vic Barber, member of 400 Fighter Squadron, said his right foot jammed the ankle.

Conscious when he was dug out of the mud where he hurtled from the plane, his repeated

"Did I kill anyone?"

Mrs. Verne Lalocque, registered nurse who heard the plane whistling down, said she was unable to get him to speak. She was with him until 11 p.m. over the weekend.

His wife, former London typist Ruth Williams, sprinted 500 yards to meet her husband when he was found.

She told police that no one had been wounded in the scratch and mud-covered face, and prepared him for hospital.

Dr. L. J. Laroche said the pilot told him he was in trouble and had been trying to get away.

Khamis stopped his car in front of his wife's house and wiped tears from her cheeks.

"Everything is going to be all right," he said.

Deputy Chief Constable A. G. Young, who recently visited the United Kingdom, said the British Whippers Safety Club is performing "a real service" to the community.

Young said the club has pinned the boy and girl of this city were learning safety rules and regulations to safeguard their own and others' safety.

The deputy chief also had a special warning to be broadcast. "Please do not drive a traffic hazard, but if you are a real danger, children must wait for just the same," he said.

Cristall Crystal Hotel Looms Near

Architects Completing Plans For \$1,750,000 Hotel Here

Architects are finishing plans for the \$1,750,000 Cristall Hotel to be built on 100A street, it was announced today by secretary Ted Cristall of the Cristall Hotel chain in Alberta.

Plans for the 10-storey 200-room hotel structure are being submitted today to City Building Inspector H. E. Goodman, architect for Goodman, prominent Montreal architect.

Mr. Goodman is also conferring with Max Dewar, the Edmonton firm of Dewar, Caverton and Stevens, restaurant experts.

SUMMER START

Ted Cristall said today it is hoped to start early this summer on construction.

Mr. Goodman said there will be approximately 200 guest rooms with space for banquet and convention rooms and store rentals on the ground floor.

Goodman said today's meeting with the city building inspector is to reach agreement on the basic design of the building, which will be determined by city council for final approval.

An agreement will also need to be reached by council on the question of concessions for which the city recently received legislative approval.

Enthusiasm Greets Start Of Check-Up

Enthusiastic response from motorists marked the opening day of Edmonton's Alberta Safety Council.

Paul Lawrence, safety director of the Alberta Safety Council, reported that inquiries about the safety of drivers increased into the Edmonton council's headquarters in the police station.

Motorists who have the safety equipment in their cars checked and approved at garages during the campaign will receive a free windshield sticker indicating their car has been checked and safety devices are working in order.

About 70 local garages are participating in the campaign which is being conducted by the Alberta Safety Council and Safety Councils of Edmonton and Calgary.

Parents Fight Molestation

The problem of children is a problem which has a great responsibility upon parents.

Mill Creek Home and School Association forwarded to its members a sex-education program to protect youngsters.

Endorsed by the Farm Women's Union of Alberta at its recent convention, the program urged parents as follows:

"Warn children of the dangers in our homes. Teach them about strangers. Tell them not to accept presents from strangers. Tell the child you never send a stranger to bring him home."

REPORT HAPPIENINGS

Do not allow children out after dark or to stow money alone in their pockets. Teach them to let others know on their way home if they are lost.

Hold In Ice

ST. JOHN'S, Nfld., April 17.—(UPI)—The sealing vessel Terra Nova battered through churning ice floes off Newfoundland's east coast Sunday to reach the side of the ice field where it had been held by the ice since Friday. The Terra Nova put a line aboard the Algoma and towed her to open water.

The king can't work on his first day since his surprise wed-

ding. The new film, "Please a Lady," is probably closer to what he likes than "a Western" than any of his past efforts.

The vehicle seems to please Gable as did the lady (Barbara Stanwyck). It's a story of a girl who has been a nurse, which may be why she played the tough chauffeur who mauled Barbara Stanwyck.

Gable currently is marking his 20th year in the movie business. It was in 1930 that a dark, slick-haired, good-looking man first got paid.

One of his first pictures was "The Painted Desert," which he played the tough chauffeur who mauled Barbara Stanwyck.

Gable has five years to go to the army uniform and another five to penitentiary.

"Will he retire then?" asked Gable. "I don't care what the public thinks. I have a good time."

The deal hasn't gone through yet, but that's what I'm after," he said. "I'd like to get that gravy train."

Asked Gable about reports he was going to produce his own pictures. He is reported to have won the chance to do one movie a year under his own name.

"The deal hasn't gone through yet, but that's what I'm after," he said. "I'd like to get that gravy train."

Five Foreign Ministers Aid Student Plan

BRUSSELS, Belgium, April 17.—(AP)—The foreign ministers of five western European countries today agreed to promote better knowledge of each other's languages and cultures by helping out exchange students.

The ministers for Britain, France, Belgium, West Germany, Luxembourg, and the Brussels treaty for western European union—agreed this step in a series of cultural and technical discussions.

Under the treaty on student exchanges, students from any one of the five countries will be permitted to study in any other country where they are at school.

It applies especially to young people who are seeking to improve their knowledge of another language or knowledge of languages.

The treaty provisions will exempt the students from the usual student allowances paid by foreigners seeking permits to work.

Another accord signed this morning makes provision on pensions and health care which will work across the border in another of the signatory countries. They are guaranteed that same wage scale, working conditions and social security benefits.

Rail Unions Study Plans

MONTREAL, April 17.—(CP)—A spokesman for 35,000 members of two Canadian brotherhoods and last night said he had been summoned to a meeting here April 24 to study findings of a cancellation board in a wages-and-disputes between the two unions and Canada's two major railway systems.

W. J. Smith, secretary of the joint protective committee of the Canadian Brotherhood of Railway Employees and the Canadian Brotherhood of Electrical Employees, and 11 brothers from Canadian Columbia's 10 provinces have been asked to attend the meeting.

He said they would study the economic and financial decisions announced in Ottawa Saturday in a body and would likely "protest to Labor Minister Mitchell." The meeting will be held in camera.

Officially Start On Construction Of Big Refinery

WINNIPEG, Man., April 17.—(UPI)—The first major ceremony marking start of construction on a \$10,000,000 Imperial Oil refinery was scheduled here today.

The new plant, largest to be built in Manitoba, and located at East St. Paul, in the Winnipeg area, was scheduled for completion by May 1961.

By that time, crude oil would be available from a pipeline taken at 100 miles. The refinery will operate at a capacity of 10,000 barrels a day, company officials said.

For Subsidies

GALT, Ont., April 17.—(CP)—Warning that "we are priced right out of the world markets by our cost of production," Arnold Darroch, Liberal MP for North Galt, Ontario, claimed that government price support and subsidies were the only present means of "making up a level playing field" for Canadian agriculture. Darroch spoke to the assembly part of a resolution by the Western Ontario Young Liberals Association supporting price control and subsidies.

From 1950 to 1951, in the wave of immigration, Saskatchewan's population increased 439 per cent.

Acheson Said Worried Over Iranian Problem

By John M. Rightowar

WASHINGTON, April 17.—(AP)—A United States mission soon may be sent to strategically-important Iran—now in the grip of an economic crisis and rising Communist pressure. The big question: What, if anything, can the U.S. do?

No top official has been decided upon yet, it was said. However, state department sources said Iran is deeply concerned over the Iranian situation and has assigned it a high priority among the urgent problems under department consideration.

The situation is complicated by the fact that Iran, along with Greenfield Turkey, is the front line of the cold war in the oil-rich middle east. It is under constant Russian propaganda pressure from the outside while a Communist political party—the Tudeh party—is gaining strength inside.

CROP FAILURE RESULTS

As top officials now understand the problem, Iran is suffering the results of last year's cereal crop failure, which was caused by gas to go hungry and farmers' income dropped.

Relief measures were taken and imports increased but in many instances the goods have piled up in the ports because world buyers couldn't pay for them. Some business men failed.

The government is said to be running into serious financial difficulties because it has had to dig into its reserves of American dollars and British pounds in order to buy food for the hungry.

Higher Gold Price Seen If Natural Level Found

TORONTO, April 17.—(CP)—Mines Minister W. L. Gammell of Ontario said today he believes gold would bring a higher price if it were allowed to find its natural level. He also advocated a higher price for uranium.

Welcoming delegates to the three-day convention of Canadian Institute of Mining and Metallurgy, Mr. Gammell stated:

"I hope the mining industry will be selling at a considerably higher price than the present market price on a natural level. We all agree that what that would mean in the economy of Canada."

After a short recess, Gammell opened the way for private prospecting and development of radioactive minerals in the territories. So far no areas have been granted.

Hand-to-hand fighting began as reinforcements rushed to aid the policemen and security guards.

Communist socialist and Christian (Catholic) trade unions had told all members who had been working at the plant to turn up as soon as the strike began.

After the 10-minute scuffle with police, the demonstrators retreated to the far side of a 100-yard no-man's land and remained themselves with bricks and bumps of coal.

Three demonstrators, including a woman with head injuries, were taken to a hospital.

Crippled Crip, His Josephine Have Troubles

AUSTIN, Tex., April 17.—(AP)—As Mac the lonesome whooper weren't enough to worry about, there's now the matter of Crip and Josephine.

Crip and Josephine are supposed to be romancing. But what with peeping and prying by a curious reporter, the romance is getting shaky.

Crip and Josephine—and Mac, too, though he may sometimes wonder—are whooping cranes.

If the fish and wildlife service count is right, there are others of the whooper hat whoopers.

A helicopter picked up Mac from a Louisiana swamp some time ago and set him down in a game preserve near Lake Charles. Mac, 36 other whoopers who spend the winter at the government preserve.

Mac tried to horn in on a mating couple. The other cranes—there stand six feet high and park a wide wingspan—were not impressed. Mac wandered about alone, roundly snubbed.

The fish and wildlife service arranged the romance between Crip and Josephine, hoping they'd do something about the world's whooper population. So far, however, the boy whooper has not been seen.

Crip is crippled. Josephine is held captive. That is why they are in the preserve. They are the only whoopers here. The rest are flying north to yet undisclosed Arctic nesting grounds.

Treasure Find Hoped Today

TOWERHILL, Scotland, April 17.—Royal navy technicians made a search for a sunken treasure ship off the coast of Scotland.

They are to dredge the seabed to find 16th-century Spanish galleons at the bottom of the sea today. In it they hope to find 30,000,000 gold ducats—worth \$60,000,000.

For two divers have been trying to clear away silt from a wreck sunk off the west coast of Scotland. According to legend, it is the galleon Duque de Alburquerque of the Spanish Armada, which went down with a load of gold back in 1588.

Tibet Mobilizes Against Soviets

Officials Report Infiltration Of Many Living Buddhas'

By Harold Guard
Exclusive to the Bulletin

LONDON, April 17.—(UP)—Tibet, the world's most isolated country, is mobilizing a great crusade to halt the inroads of Communism into the Buddhist world, authorities in touch with the government at Lhasa reported today.

The original fair house where the survivors gathered in 1865 to celebrate the end of the Civil War has been restored by the national park service.

Within Tibet, a recruiting drive was said to be under way to mobilize the followers of "the True Buddha" throughout Asia to resist Communism.

But Tibetans are also hoping to establish among all Buddhists that the Dalai Lama, and not the 13-year-old Panchen Lama, is the incarnation of Buddha. They say the Panchen Lama has never been inside Tibet and that he is nothing but a pretender who was installed by trickery and force.

The agent general of Tibet was said to be starting "forceful military measures" within Tibet, including the encirclement of one Tibetan family.

Those who have no man to spare are being compelled to pay an indemnity or to hire a servant to join them for the march to Lhasa.

As a result, the Dalai Lama's forces are reported to be increasing rapidly.

The "living Buddhas" are carrying a message exhaling the Dalai Lama's spiritual following.

They are to be "disappearing into mud jungles."

The government in Tibet rests on the sanction not of force but on the goodwill of the Buddhist people. Its purpose was to be free and happy and to be left in peace to develop their own way of life," the regent was quoted as saying.

'One-Man' Government

Who says there isn't one-man government in Alberta? Hon. A. J. Hooke (some of us call him Alf) and get away with it! He's all of the joint on Saturday.

Premier attorney general, minister of agriculture, health and welfare, education, lands, mines and forests, municipal affairs, trade and industry, provincial secretary and provincial treasurer.

Reason: Premier Manning with his ministers May 10, 11 and 12. Mr. Wimberly attending big Social Credit rally. Casper was in Drumheller on education business. Tanner is in Barhadous, Gerhart, MacMillan and Dr. Robinson were also out of town.

* * *

Betty Miller of 11913-95th street phoned yesterday with a first-of-the-season story. Betty doesn't swear by the first robin in Edmonton this year, but it's the first she saw.

I think that entitles Betty to honorable mention because everybody can't just drop everything and go out looking for first robins, first butterflies and first caterpillars.

Problems of Supply

Jerry Forbes cakr at CFRN wants to know why Edmonton grocers seem scared they'll have bread left by closing time each night. Says he went to four stores the other evening and couldn't buy a loaf of bread.

He also complained that nearly every Edmonton restaurant seems to be empty. "Seem scared they'll have some more," says Jerry.

I don't know the answers, Jerry. Maybe you ought to do your shopping and your eating earlier.

I can remember when the stores stayed open late on Saturdays. There was just as big a rush of customers at 9:30 p.m. as there was at 5 p.m.

Now I'm going to ask one: Why do I never "need" a haircut except Wednesday afternoon?

* * *

A chirpy goodnight to all and especially to people who see first robins in the spring.

SHOPPING GUIDE

Sister Bea Carries The Feminist Banner

By Bea Thrity

I thought I'd take time out from our shopping routine to tell you about a fairly meaty article I read on the eman; caption below.

Now . . . don't go away! Emily Pankhurst games. Just thought it might be kind of a few ideas to men versus women. * * *

Same article was written in meticulous, ponderous fashion, but I've summed it considerably and irreverently.

So we'll have a fast column of Bea's summary . . . just for laughs . . . and for the background of reasoning.

The ladies' bias has ever maintained that the right out of the frame pan into the fire.

The gentle, be-determined — sex has arrived at a strange point with them. They have not yet said what they never started the silly business . . . others are still waving the banner. * * *

Women are now free to build bridges, conduct performances, open driving schools, taxicab companies, bank tellers if they happen to feel so inclined.

(This week a pert 'lively gal visited Edmonton on her official errand of a petroleum engineer.)

But even though the girls are at times sharing bank teller's "such. They don't make very good husband-material.

And of course says the article the 26-year male is a badly mixed up sort of fellow. He wants a woman who is a good companion, one who is a bawlk in times of stress and yet a woman who is also willing to consider herself in command in the family. Second . . *

Now an increasing number of women are financial executives, bank tellers and dentists. And here comes the girdle to care to take a back seat in the department of "bossiness."

They want a marriage that like a business partnership . . . with no senior partner.

On the other hand . . . there's the ever-existent factor that a lot of women just don't give a hoot for a career. And it's certainly true that many women prefer to spend their lives as bachelor executives.

And here's another statistical gem: records show married women find more distinction in splitting life between career and home.

So there.

Author of article tells of half a hundred women leaders in business, law, medicine, executive executives, stockbrokers in skirts . . . every kind of female boss you can imagine. And she ends with a call to those who have jobs and settle for staying at home.

Take it or leave it girls . . . it's up to Emily Pankhurst or a lady-like raspberry for the "blowmer girls."

The custom of wearing orange blossoms at weddings is thought to have originated with the Moors. Crosses, crowns and the like were symbols of chastity and fecundity.

DOROTHY DIX SAYS

Wife Should Just Let Him Tire of His Infatuation

LADY MISS DIX: I have been married seven years to a man of good character.

We have two adorable children and have been very happy together. Last year we met a beautiful young woman whom he has thrown much into our social life. We are all very fond of her.

Others have noticed it and are beginning to talk about it. I have tried to ignore it, but my heart is in my heart. I have tried to laugh it off, tried to think it was nothing to worry about, but, really, I know better. I don't know what to do.

Small I talk it over with him, or death and telling him how terrible it is, and set it aside. He has a divine court because he has a passing infatuation for some other woman.

Let me assure you that I am alone, so far as any interference is concerned, in this matter. I am not the only one. The percentage of infatuation is high among children of all ages, and among adults, too. This child has to manufacture ways in which to bring himself before his family or friends.

The ways chosen are not always admirable ones. The child may find ways to get attention from parents through sickness, through being the most incorrigible and unmanageable child or the one with the greatest food idiosyncrasies. There are many other peculiar problems of the middle child and should foster talents and skills which will give him importance.

Our Jeales No. 48 "Physical Handicaps of the School Child" will help you. Send a self-addressed envelope with your request to Myrtle Meyer Eldred in care of this newspaper.

ANSWER: I suppose men are as prone to flirtation as the sparks are to fly upward because they are built that way. You're right, though. Women, however, still carry the torch in their hearts and the one in question should be a good catch and see we attract as good women.

WE WOMEN UNDERSTAND: This is something we women can never understand. We can never comprehend how a man can have his wife, still think her the finest woman in town, and the one in question should be a good catch and see we attract as good women.

WE CAN'T UNDERSTAND: It is something we women can never understand. We can never comprehend how a man can have his wife, still think her the finest woman in town, and the one in question should be a good catch and see we attract as good women.

WE CAN'T UNDERSTAND: Just the same fact that he knows that his flirtations future his wife, who would be a wonderful companion to him, if he were to leave her.

But I do think also that the woman is who tries to see the man in the other woman, and who stands as nearly as she can, and who does not wish to be

seen to be a party animal.

Just the same fact that he knows that his flirtations future his wife, who would be a wonderful companion to him, if he were to leave her.

European Defence In Testing Period

London Conference Expected To Have Radical Decisions

By John M. Hightower

WASHINGTON, April 17.—(AP)—A serious testing period is drawing near in forging western defence against Soviet Communism.

Diplomatic and military officials are agreed that allied powers in the North Atlantic Pact must make radical decisions during the next few months about shaping their individual resources into a weapon for war.

Canasta

FOR BEGINNERS—14

At this point in the game or Canasta which we have been watching both sides of the fence,

North-South have made 7-7 and Q-Q-2. East-West have made J-J-J-Joker. The fact that melds are on the table alters the rules that control picking up the discard pile.

As you remember, up to this time it was possible to take the discard pile out if you had a matching pair of cards of equal rank. This would put the two countries together with a count that met the minimum requirements. Now, however, both of those rules may be as small as a speck.

Moreover, it becomes easier to pick up the discard pile after your side has broken the ice by bidding a pair of needful cards. If you are not too far along in your studies, you may do so with merely one natural matching card and one wild card. This is usually a good idea.

Finally, if the player at your right discards a card that matches any of your melds, you may pick up the discard pile along with the rest of the discarded pile.

EXPERIENCED PLAYERS—14

For many years people all over the country have written to me to ask about the rule or the best play in some particular situation. On the United States side, we can only assure you that our answers to these questions are given cheerfully and free of charge.

I must admit, however, that some of my cheerfulness disappears once I realize what a number of certain questions come from. The trouble is that a few people are causing some confusion among Canasta players.

People can at least a hundred times ask me if it is legally permissible to pick up a discard that matches your closed cascade. In fact, they have closed cascade in Japan and the player at your right discards a Jack—can you pick it up?

The answer is no. A closed cascade just like any other meld. When the previous discard matches your meld—whether that meld is a closed cascade or any other kind of meld—it can be picked up to protect ourselves from the outside.

That is the official rule, and there never has been any other official rule. Few people know the rule that states a discard disappears as a stop card, but their rule is not official. (As a matter of fact, it has not even a good chance. Most good players agree that it spoils the game.)

If you meet players who want to know where their particular rule came from, tell them to have a look at the rule that states a discard disappears as a stop card, but their rule is not official.

But that's not a good change. Most good players agree that it spoils the game.

Remember that the official rule still stands. You are allowed to pick up the previous discard even if it matches a closed cascade.

DRINKERS GET LONG DRINKS FOR FREE!

GILLINGHAM, Kent, England, April 17.—(Reuters)—Beer—hundreds of barrels of it—floated down the Midway River Saturday with civilians, customs men and police in hot pursuit along the river banks.

This liquor dream began when the major brewer, Bass, held a competition with bars and crates of beer in London next month.

Acheson probably will advocate the same. The North Atlantic alliance will make radical decisions during the next few months about shaping their individual resources into a weapon for war.

An effort to lay some of the groundwork for these decisions is expected to be made by State Secretary Dulles when he meets with Canadian Defense ministers in London next month.

Out of the discussions may emerge a decision to set up a committee to study how far it can go in co-ordinating major political and economic policies, as well as military policies, of its 12-member alliance.

Some of the discussions may continue, however, to lay the ground work for a committee to study how far it can go in co-ordinating major political and economic policies, as well as military policies, of its 12-member alliance.

Mrs. Roosevelt, General In Sharp TV Exchange

NEW YORK, April 17.—(AP)— Mrs. Roosevelt declared that the Yalta Conference "violated the territorial integrity of China" by returning to China on the "secret agreement at Yalta" and got a heated reply from his television hostess, Mrs. Franklin D. Roosevelt.

Bucking up Mrs. Roosevelt was Senator Warren G. Magnuson (Dem., Wash.) member of the Senate investigation and foreign commerce committee.

Mrs. Roosevelt asked Hurley, former ambassador to China, to lead off the discussion on the present situation on her National Broadcasting Company television show.

Hurley declared that the Yalta Conference "violated the territorial integrity of China" by returning to China on the "secret agreement at Yalta" and got a heated reply from his television hostess, Mrs. Franklin D. Roosevelt.

"Mrs. Roosevelt noted that at that time I told the Russian delegation 'you're very badly' and 'you might not do it today but you certainly had every reason to do it then.'

"We know from many things what were the main things we aimed at in Yalta and for you to say that it's all extraneous just doesn't understand how you can ignore it."

Newswoman Scott
HALIFAX, April 17.—(CP)—Barbara Ann Scott, Canada's skating queen, was presented an honorary membership in the Halifax Press Club here Saturday night to become the club's first female member.

The award was made by Mayor Gordon S. Kinley, who also presented Miss Scott with a gift of \$100.

Miss Scott noted that at that time I told the Russian delegation 'you're very badly' and 'you might not do it today but you certainly had every reason to do it then.'

Canada Art Board Is Aim Of Council

OTTAWA, April 17.—(CP)—Creation of a national arts board of artists and citizens to aid and develop Canada's cultural conscience was urged today before the Massey Commission on Arts.

Concerned over the barrenness of culture in Canada, the commission heard from the board along with 10 other recommendations to spark a new spirit of cultural advancement in this country.

The arts council, which represents 18 national cultural bodies

authors and artists by awarding prizes and fellowships.

Other recommendations of the commission:

1. Increased financial support for the Canadian Broadcasting Corporation and artist representation on CBC and television boards.

2. Federal financial help to universities, research foundations, touring institutions in art, drama and music, national scholarships for students and prizes for artists.

3. Immediate construction of a national library.

4. Help to build permanent galleries, theatres, concert halls, galleries and art centres across the country.

5. Financial aid to help stage plays, opera and orchestral performances and to assist circulating art exhibits.

Woman Changes Story When Man Shoots Self

DUBLIN, Ga., April 17.—(AP)—A woman returned to say: "Yep, that's him."

"That's who?" asked the revile newspaper woman, Mrs. Sarah Orr, reviewing a murder story in a telephone booth Saturday to cover a man and wife.

Mrs. Orr, correspondent for the Associated Press, was telephoning a report on the shooting of Mrs. Mary Andrews, who died a week ago while passing.

"Wait a minute," she said. "A man just shot himself next door, over there where's a building under construction. Hold on."

While she was telephoning, the body of Dukes was found.
